iPhone Hype Hides the Handcuffs

The iPhone hype hides a basic problem with the product – Digital Restrictions Management (DRM) inside the iPhone means that it won't be under your control. Apple has built this “smart” phone to dumb you down. They also want you to switch your cell phone service to AT&T – who collaborated with the National Security Agency (NSA) in its massive, illegal program to wiretap and data-mine Americans' communications.

What is DRM?

Digital Restrictions Management (DRM) is an attempt by hardware, software and media companies like Apple to control the media and electronic devices you legally own--- to control what you do with them in the privacy of your home.
